New Jersey Canada Director for Atlantic Canada

Mark Anderson was recently confirmed as the new Jersey Canada Director from Atlantic Canada. Mark and his wife Marjorie milk 90 cows in a freestall herd in Ward's Creek, New Brunswick. They have 10 Jerseys in the dairy herd, with the remainder being Holsteins. The Jerseys are registered under the Co Co Creek prefix. They have had Jerseys in their herd since 2000 and 100% are classified Good Plus or better. Mark has been both a 4-H member and leader and completed the NB Advanced Agricultural Leadership Program in 2004. He has been a director of the Sussex Co-op for six years, including two years as president. The family also raises sheep, including 75 Dorset and crossbred ewes. Mark and Marjorie have a son named Iain and Mark is proud to represent Atlantic Jersey breeders on the Jersey Canada Board of Directors.

National Fieldman visits Maritimes

Jean-Marc Pellerin, National Fieldman for Jersey Canada, recently did 18 herd visits in the Maritimes in April. He concentrated his visits primarily in New Brunswick and North Eastern Nova Scotia this trip. He was able to answer a lot of questions about bulls and managing Jerseys. He was also able to answer questions about sexed semen and use of young sires. Thank you to Jean-Marc for continuing to assist many of our newest Jersey members!

Atlantic Canada EX Cows and VG Two Year Olds

cows classified between September 1st, 2010 and May 25th, 2011
